COMPREHENSIVE OPERATIONAL ANALYSIS STUDY (COA)

The City of Tucson, in partnership with the Pima Association of Governments (PAG) is completing a Comprehensive Operational Analysis (COA) on Sun Tran, Sun Link, Sun Express, and Sun Shuttle services. A COA evaluates all aspects of existing transit services, access, and equity to develop opportunities/recommendations for improving the value, efficiency, and performance of current transit options. TMD in partnership with HDR will hosted a series of public and virtual meetings with an online survey beginning January 23. Forty three (43) stakeholders attended a virtual meeting on February 2, to provide

feedback and to learn more about the study. The Public was invited to participate at a series of pop up events on Tuesday February 7, at Ronstadt, Tohono and Laos Transit Centers, San Xavier Del Bac and University of Arizona. On Wednesday February 8, staff members were at Pima Community College East campus so the public had a chance to take the survey and learn more about the project. A virtual meeting was held online Thursday February 9 and Wednesday February 15. American Sign Language (ASL) and Spanish interpreters were made available at the virtual meetings. The survey is available online now until March 3 by visiting www.TucsonCOA.com.

CRISIS COMMUNICATIONS TRAINING

Sun Tran marketing completed online courses in Emergency Management communications and Incident Command Center. As part of SunTran's

> commitment to the safety and security of its employees and passengers, completing these training courses are vital and key to growth in communications.

SUN VAN JOB FAIR 2/25

Sun Van hosted a job fair on Saturday February 25th from 9a-1pm that approximately twenty people stopped in to inquire about open positions. Sun Van's Human Resources Department conducted ten (10) in person interviews that day for both Sun Van Operators and Reservationist positions.

SUN VAN CUTAWAYS

Sun Van received approximately half of the new Ford cutaway vehicles, all vehicles are ADA accessible and offer a lift to passengers that require that service during their trip. The remaining vehicles are set to enter the Sun Van fleet in May 2023.

TOHONO TRANSIT CENTER

The Tohono Transit Center received pothole repairs on the main thoroughfare. Repairs to the pavement allow the buses to navigate the area with ease and passengers to cross the center safely.

SUN LINK OVERHEAD CANTENARY SYSTEM (OCS) SEMI ANNUAL INSPECTION

Sun Link's Right of Way Lead Xavier Soto and his team James Moriset, Tadd Kirksey and Matthew Wicklund completed the Semi Annual OCS or Overhead Cantenary System on the Sun Link streetcar system. Utilizing the Asset Management system allows Sun Link Maintenance Manager, Robert Asaro the opportunity to review the

inspection and keep the process efficient and repairs made timely. The inspection takes 2 ½ to 3 weeks to complete and allows Sun Link to get ahead of any potential issues that could arise as well as replace any parts that may not to be replaced. Parts

for the streetcar could take up to 10 months to receive, so staying stocked on parts and completing these inspections is the key to running an successful safe and secure operation.

I-10 CLOSURE

On February 14th, due to a chemical spill on I10 and Rita Rd. parts of I10 and the surrounding area were closed for several days. This closure impacted the Sun Express and Sun Van service for three days. Operations, Safety & Security and Marketing implemented a plan for rerouting the buses/vans and staff and passenger communication plans were put into effect. Crews were able to clear the area and service resumed as normal with minimum impact.
