NEW YEAR SAFETY RESOLUTION POSTERS

New year, new resolutions! This month Sun Van wanted to promote and cultivate a safe work environment by creating a New Year safety resolution with drivers. With the help of Dispatch Supervisor Johnny Dean and Scheduling and Dispatch Manager Stephanie Ramirez,

they decided to create a poster where drivers and all staff can write down their New

Year's safety resolutions. Sun Tran also created their own safety resolutions poster for all their operators. This fun project highlights the importance of safety for employees and riders at Sun Tran, Sun Van, and Sun Link.

JANUARY JOB FAIRS

Sun Tran attended two job fairs this month. On January 24, Sun Tran hosted a career fair at the 34th Annual Diversity Career Fair at the Desert Diamond Casino. That same week on January 27, Sun Tran participated in the HDS Truck Driving Institute's career day. Many cur-

rent and graduated students had the chance to ask questions and seek opportunities at Sun Tran, Sun Van and Sun Link teams. Several applications were handed out and some were filled out that day.

SUN TRAN CAMERA UPGRADES

All current camera upgrades at Sun Tran facilities including two Park & Rides are completed. The project has been ongoing for a year in order to replace and upgrade all of Sun Tran's camera system. The old cameras passed their service life and were replaced with current industry standard cameras. This is a continuation to create a safe and secure environment for passengers and employees.

COMPRESS NATURAL GAS (CNG) PLANT PROJECT

Sun Tran is in the works in building a Compressed Natural Gas (CNG) plant at the northwest facility after being awarded a Federal Transit Administration (FTA) grant. After being in the designing phase for a few years, the project is now in the bidding process to select a contractor. Construction is expected to be completed in 2025. With the new CNG plant all 126 buses from the south facility will transfer to the northwest facility, resulting in all buses operating from the northwest facility. Currently more than half of Sun Tran buses are powered by CNG. CNG buses lower air pollution by emitting

90% less hydrocarbons and **50% less**nitrogen oxides.

90% less carbon monoxide,

ROAD SUPERVISORS ISSUED TABLETS

Tablets have been distributed to all Sun Tran Road Supervisors, allowing them to efficiently complete accident and incident reports directly from the scene, streamlining the reporting process. Upon returning to the yard, they can easily print their reports, saving valuable time. Looking ahead, the availability of these tablets opens up opportunities for further utilization in various tasks and operations, promising increased efficiency and effectiveness moving forward.

SUN LINK PASSING SETA EXERCISE

In January, the Transportation Security Administration (TSA) executed a comprehensive Security Enhancement Through Assessment (SETA) exercise on Sun Link street-

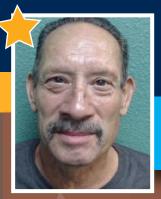

car. Sun Link scored a **90%** on the SETA exercise. This evaluation aimed to boost the security measures of Sun Link.

We like to recognize our employees who go the extra mile to help our passengers become <u>Raving Fans.</u>
