Sun Tran Bus Grant Award, \$11.38 Million!

On Wednesday, July 10 the City of Tucson and Sun Tran celebrated the \$11.38 million bus grant from the Federal Transit Administration (FTA).

This funding from the FTA will help Sun Tran upgrade aging equipment and multiple bus stops. All 2,200 bus stops will receive

new accessible signage through braille, large print, wayfinding and audible information.

In addition to new signage, 80 bus stops will receive new bus shelters. The new sheltered stops will also include native vegetation, green storm water infrastructure, solar compacting touchless trash receptacles, emergency call buttons, and so much more. Bus stops are not the only ones getting upgrades. Sun Tran's Northwest Bus Maintenance Facility will receive two new bus lifts.

These improvements are a step toward making Tucson transit more accessible and equitable for all Tucsonans.

Recognizing Sun Tran Operator Twila

Sun Tran recognized operator Twila with a certificate of appreciation for saving a passenger's life on July 2. Early Tuesday morning, Twila was approached by a passenger, reporting an unconscious man sitting on a bench at Laos Transit Center. Twila walks towards the man on the bench and quickly checks his pulse. She dials 911 and immediately begins CPR until emergency services arrive.

Twila's quick and professional response during this critical moment is truly commendable. Sun Tran is proud to have a hero like her on the team!
