

SUN TRAN FLEET FACTS

Sun Tran’s active fleet consists of 185 buses, including 126 compressed natural gas (CNG) buses, 10 hybrid buses, 10 battery-electric buses, and 39 diesel buses. Every vehicle is ADA accessible and equipped with either Quantum or manual wheelchair securement systems, as well as bicycle racks to enhance rider accessibility and convenience. As part of its commitment to sustainability and climate

resilience, Sun Tran continues to invest in Tucson’s future by expanding its battery-electric fleet and replacing diesel buses with CNG vehicles. These efforts will help reduce emissions and move the agency toward operating a cleaner, more environmentally responsible transit system, with the goal of achieving a 100% alternative-fuel fleet.

Gillig - 2023

Number in Fleet: 20
Fuel Type: Compressed Natural Gas (CNG)
Number of Seats: 34
Bus Length: 40 feet
Accessibility: Ramp
Special Features: Low-floor, ramp, Quantum and manual securement stations

Gillig - 2022

Number in Fleet: 18
Fuel Type: Compressed Natural Gas (CNG)
Number of Seats: 34
Bus Length: 40 feet
Accessibility: Ramp
Special Features: Low-floor, ramp, Quantum and manual securement stations

Gillig - 2021

Number in Fleet: 10
Fuel Type: Electric
Number of Seats: 34
Bus Length: 40 feet
Accessibility: Ramp
Special Features: Low-floor, ramp, Quantum and manual securement stations

Gillig - 2020

Number in Fleet: 20
Fuel Type: Compressed Natural Gas (CNG)
Number of Seats: 34
Bus Length: 40 feet
Accessibility: Ramp
Special Features: Low-floor, ramp, Quantum and manual securement stations

Gillig - 2018

Number in Fleet: 23
Fuel Type: Compressed Natural Gas (CNG)
Number of Seats: 31
Bus Length: 40 feet
Accessibility: Ramp
Special Features: Low-floor, ramp, Quantum and manual securement stations

Gillig - 2015

Number in Fleet: 16
Fuel Type: Compressed Natural Gas (CNG)
Number of Seats: 31
Bus Length: 40 feet
Accessibility: Ramp
Special Features: Low-floor, ramp, Quantum and manual securement stations

Gillig - 2015

Number in Fleet: 5
Fuel Type: Compressed Natural Gas (CNG)
Number of Seats: 32
Bus Length: 35 feet
Accessibility: Ramp
Special Features: Low-floor, ramp, and manual securement stations

Gillig - 2014

Number in Fleet: 24
Fuel Type: Compressed Natural Gas (CNG)
Number of Seats: 34
Bus Length: 40 feet
Accessibility: Low-floor, ramp and manual securement stations

Gillig - 2012

Number in Fleet: 9
Fuel Type: Hybrid
Number of Seats: 34
Bus Length: 40 feet
Accessibility: Low-floor, ramp, and manual securement stations

Gillig - 2012

Number in Fleet: 33
Fuel Type: B5 Bio-diesel
Number of Seats: 34
Bus Length: 40 feet
Accessibility: Low-floor, ramp, and manual securement stations

Gillig - 2011

Number in Fleet: 12
Fuel Type: Bio-diesel-Urea
Number of Seats: 34
Bus Length: 40 feet
Accessibility: Low-floor, ramp, and manual securement stations

Gillig - 2009

Number in Fleet: 4
Fuel Type: Bio-diesel
Number of Seats: 34
Bus Length: 40 feet
Accessibility: Low-floor, ramp, and manual securement stations

Gillig - 2007

Number in Fleet: 11
Fuel Type: Bio-diesel
Number of Seats: 34
Bus Length: 40 feet
Accessibility: Ramp
Special Features: Low-floor, ramp, and manual securement stations
